Problem statement	
Targets	Students
Goal	Manage all evidence in one place
Use Cases	<ul style="list-style-type: none">▪ A user would like to see what goals and collections are connected to each evidence.▪ A user would like to change the goals and collections of the evidence.▪ A user would like to see the latest feedback status per evidence.▪ A user would like to filter by date.▪ A user would like to see orphaned evidence.
Current situation	Basic list of all evidence with few details that students do not use much.
Validation	

Solution requirements

Ideal situation	A functional dashboard with a clear overview of all evidence with necessary features to help manage it.
Ideas	Dashboard view that offers a summary of all evidence, the evidence can be sorted and filtered. Each evidence has visible details for clear overview and quick edit.
Functional Challenges	<ul style="list-style-type: none">▪ The dashboard becomes too cluttered.▪ Duplicated features in overview and detailed view of evidence.
Technical Challenges	<ul style="list-style-type: none">▪ Increasing the load of the application with many requests to the database.
Requirements	<ul style="list-style-type: none">▪ Dashboard view of evidence with the following information:<ul style="list-style-type: none">• Total evidence count• Count of evidence linked to collections• Count of evidence linked to goals• Orphaned evidence (not belonging to any collection)• Evidence counters of each type• Evidence counters for each feedback status• Count of evidence without description• Count of evidence without any comments▪ The dashboard can filter the table below by:<ul style="list-style-type: none">• Type of Evidence• "Orphaned"• Feedback Status• Evidence without description• Evidence without comments▪ Table with all evidence that offers overview on Evidence:<ul style="list-style-type: none">• Type• Name• Upload date (default – newest on top)• Feedback status• Linked Collections• Linked Goals▪ Remove integrated in the table▪ Search bar▪ Date picker to filter by date▪ Clear filters button▪ Add evidence button should be smaller and on the right side
Out of scope	<ul style="list-style-type: none">▪ Preview section of the evidence file▪ File-map or tree
